TRUSTMARQ 

Automate your path to compliance with RAMP-Up®

HOW IT WORKS

RAMP-Up® is a purpose-built managed accelerator service that allows you to automate the entire lifecycle of obtaining a FedRAMP ID and FedRAMP approval to improve and strengthen your cloud security. Powered by the Ignyte Assurance Platform, our FedRAMP team brings you a holistic solution with a translation engine that simplifies the path to FedRAMP compliance.

SERVICE LIFECYCLE

Benchmark:

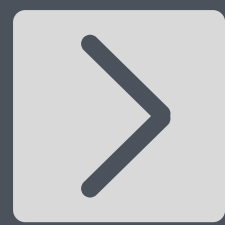

Guided pre-assessment & assessment capabilities reducing the need for external resources

Align:

In-house Management of knowledge and capabilities with FedRAMP Vocabulary

Automate:

Automation & cross-mapping across multiple frameworks with proprietary language translation engine

Monitor/Report:

Continuous + Automated Monitoring and Compliance Reporting
